Dr Faridah Otulana BDS (Hons), MFDS RCS (Eng)

Faridah Otulana is the dental representative on the UK Salivary Gland Cancer Research Working Group and a Dental Core Trainee 3 in Oral and Maxillofacial Surgery in the Liverpool Head and Neck Unit.

Since graduating with honours from King's College London, she has gained clinical experience across head and neck surgical departments in London, contributing to the multidisciplinary management of patients with complex head and neck conditions.

Faridah is actively involved in clinical research, audit and quality improvement, with work presented at national and international conferences and published in peer-reviewed journals. Her research interests include the surgical management of salivary gland pathology, surgical decision-making, reconstructive outcomes and improving patient experiences.

Alongside her clinical and academic commitments, she volunteers with head and neck cancer charities and is passionate about advancing patient-centred research, improving treatment outcomes and supporting individuals affected by rare head and neck cancers.
